## **Project Development-Delivery of Sprint2**

Date	10 November 2022
Team ID	PNT2022TMID29469
Project Name	Project -IoT Based Safety Gadget for Child
	Safety Monitoring and Notification

Sprint 2 is about **LOGIN** and **NOTIFIACATION** of the IoT device in Parent's Web Application for getting information about Child's Status.

#### LOGIN:-

This Coding is to built login page of parent's application to get information about child's condition.

### **OUTPUT:**

## **NOTIFICATION:-**

This coding will make connection between IoT Device & Parent's application. When the child cross across the geofence message will be notifed on parent's application.
